DETAILED ACTION

Introduction

1. This action is response to amendment flied on 12-27-2004. Claims 1, 4, 10, 13, 19 have been amended and claims 1-25 are pending.

Drawings

2. In addition to Replacement Sheets containing the corrected drawing figure (1), applicant is required to submit a marked-up copy of each Replacement Sheet including annotations indicating the changes made to the previous version. The marked-up copy must be clearly labeled as "Annotated Sheets" and must be presented in the amendment or remarks section that explains the change(s) to the drawings. See 37 CFR 1.121(d)(1). Failure to timely submit the proposed drawing and marked-up copy will result in the abandonment of the application.

Claim Rejections - 35 USC § 112

3. Claims 1-5,7-8,10-11,13-14 and 19-21 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The driven "subtracting the dynamically varied right and left high frequency band signals from the left and right surround channel outputs when the summed high frequency band signal is dominant" (see specification page 15-

Art Unit: 2643

18 and 24-25 and figs 1-13) was not supported in the further detail in the specification

nor in any of claim.

Response to Arguments

4. Applicant's arguments with respect to claim1-5, 7-8,10-11, and 13-14, 19-21 have

been considered but are moot in view of the new ground(s) of rejection.

13. Regarding applicant's argument the section 112 rejection (remarks page 14 third

paragraph). The Examiner reads the figs, 3-4, 7, 9 and 10 and pages 15-18 and 24-25

carefully, but the examiner can not find that subtracting the right and left high frequency

band signals from the left and right surround channel outputs when the summed high

frequency band signal is dominant.

Allowable Subject Matter

5. Claims 16-18 and 22-25 are allowed.

Claims 6, 9, 12, 15 are objected to as being dependent upon a rejected base

claim, but would be allowable if rewritten in independent form including all of the

limitations of the base claim and any intervening claims.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to

applicant's disclosure.
